

IMAGE USE POLICY

Introduction

This image use policy applies to the use of any film and electronic photographic equipment used in our setting. This will include cameras, mobile phones, webcams, tablets and portable gaming devices with inbuilt cameras as well as other forms of digital technology and resources for storing and printing images.

As digital cameras and mobile phones have become more advanced and easier to use, it is increasingly likely that children and their families will be using digital photography as part of their everyday family life. It is therefore very important that Rainbow Corner Nursery School and all staff, management, volunteers, students, visitors to the setting, parents/guardians and children consider the impact such technology may have.

Digital technology has increased the potential for cameras and images to be misused and inevitably there are concerns about the risks to which children may be exposed. However we understand and are aware that the behaviours of individuals using the technology present the risk, not the technology.

Most children who suffer abuse are abused by someone they know. We have taken the view, in consultation with other agencies, that the risk of a child being directly targeted for abuse through being identified by a stranger is small. By taking reasonable steps to make certain that a photograph is appropriate and the full name and contact details are protected, then photography for use in our setting and other events by staff, families and the media should be allowed. We are aware that the widespread use of mobile telephones as digital cameras would make banning them very difficult for us to impose and police. (For further information regarding the general use of mobile phones and recording devices please see our Mobile Phones and Recording Devices Policy). Generally photographs for setting and family use and those that appear in the press are a source of pleasure and pride. They enhance self-esteem for children and their families and this practice should continue within the safe practice guidelines detailed below.
